The Commission decided to treat this letter as an application requesting authority to deviate from the provisions of Commission Regulation 807 KAR 5:026E, Section 6, Subsection 6.

3. The completed service line installation should be inspected by Commission staff members prior to the filling of the ditch.

4. Mr. Devaney should notify the Commission when construction is sufficiently completed to allow for the above inspection.

5. The plastic pipe should be installed by persons who qualify under O.P.S.O. requirements.

6. This service line should be used only to serve one dwelling as required by state law.
